Titans The twelve Titans, children of Uranus (Heaven) and Gê (Earth), were the group of gods immediately preceding the Olympian gods in Greek mythology. The Olympians defeated the Titans in a battle — the *Titanomachy*. The word 'titanic' refers to the great size and power of the Titans, attributes necessary to make their defeat by their children, the Olympians, more impressive. In appearance, they are thus much like the Giants, and in classical and later art it is often difficult to tell whether Titans or Giants are represented. In addition to the Titans, Uranus and Gê produced monstrous offspring: three beings each with a hundred hands, and three one-eyed giants (the *Cyclopes*).
